

### KIDS HELPING KIDS JUNIOR GOLF CLASSIC

SPONSORSHIP OPPORTUNITIES JUNE 12, 2022

# KIDS HELPING KIDS

#### **SUNDAY, JUNE 12, 2022**

2:30pm Registration + Lunch; 4pm Shotgun Silver Springs Golf & Country Club

The annual Kids Helping Kids Junior Golf Classic is a muchloved event for our youngest golfers! The Kids Helping Kids Junior Golf Classic consists of 70 youth golfers that have the opportunity to play a 9 hole shotgun, stock up on some great treats and goodies from our community sponsors, and take part in a wonderful BBQ lunch, all while supporting the Alberta Children's Hospital Foundation.

With support from our sponsors and the eagerness of our community's junior golfers, over \$80,000 has been raised since 2017 in support of the Alberta Children's Hospital.

This event is such a great example of what young people can accomplish together. You are invited to support this great event, with sponsorship opportunities available!

### Thank you for your commitment to make an impact in our community!

Throughout 2022, the Alberta Children's Hospital is celebrating a very special milestone: 100 years of hope and healing. Over the last 100 years, countless children and families have relied on care at the hospital, much of which has been possible thanks to generous community support.

Thanks to you, experts have been able to carry out worldclass research to identify and develop new and better treatments and, in some cases, cures. Thanks to you, specialists have been equipped with leading-edge tools and technology, allowing for quicker, more accurate diagnoses and more effective intervention, sooner. And thanks to you, the hospital is home to specialized programming to make health journeys a little more bearable for families and allow kids to still be kids.

Thanks to you, the possibilities for progress in the next 100 years are endless. We are grateful for your sponsorship consideration for the 2022 Kids Helping Kids Junior Golf Classic, which will help the 100,000 children and families who rely on care at the hospital in a typical year and well into the future.
